TARGETED RESEARCH FIT FOR AUS

MSc candidate in Procurement & Supply Chain Management with a bachelor's in management, Finance & Accounting and applied experience in infrastructure profitability, traffic-exposure analysis, spatial analytics, financial modelling, and dashboards. Applying to AUS MSEP with a Dubai-focused proposal that converts smart-traffic project claims into admissible welfare evidence through treatment-registry design, data-gated quasi-experimental evaluation, hedonic fallback analysis, and cost-benefit appraisal.

PROPOSED AUS MSEP RESEARCH ALIGNMENT

From Traffic Claims to Welfare Evidence | *Research proposal for the M.Sc. in Economics and Policy, AUS* | Dubai / UAE | May 2026

- Designed a data-gated protocol for Dubai smart-traffic investments, separating causal traffic effects, secondary property-capitalisation evidence, and scenario appraisal.
- Specified DiD/event-study models only under verified timing, geography, controls, and unit-period outcomes; defined downgrade rules when evidence cannot sustain causal claims.
- Integrated CBA through NPV, BCR, CAPEX/OPEX, value-of-time, safety, emissions, and sensitivity analysis, with QGIS/SUMO reserved for spatial exposure and scenarios.

EDUCATION

MSc Procurement & Supply Chain Management | INSEEC Business School | Oct. 2025 – Present | Lyon, France

- Current graduate studies focused on procurement, supply chain performance, cost analysis, operational decision-making, and data-supported management.

Bachelor's Degree in Management, Finance & Accounting | Université Internationale de Casablanca (UIC) | Sept. 2022 – Jul. 2025 | Casablanca, Morocco

- Graduated with High Honors (Mention Très Bien).

RESEARCH, CAPSTONE PROJECTS, AND TECHNICAL WORK

AI-MCDM Investment Scoring for Smart Cities under Carbon, Energy, and Geoeconomic Risk | Research Manuscript | May 2026 | INSEEC Business School

- Developed an AI-enabled multi-criteria decision-analysis scorecard for ranking smart-city infrastructure projects under energy-price, carbon-cost, and geoeconomic-risk uncertainty.
- Combined XGBoost demand forecasting, carbon-adjusted Decoupled Net Present Value, Real Options valuation, Fuzzy-AHP/MEREC weighting, and AROMAN ranking.
- Benchmarked the constructed project sample against World Bank PPI, EIB project, EIBIS, and World Bank WDI/ESG datasets.
- Reported 45.8% lower MAE for XGBoost versus Ridge regression in temporal validation; Wilcoxon $p = 0.0039$.
- Produced a 25-project ranking framework with sensitivity analysis, cross-method comparison, and auditability/traceability disclosure.

Evaluation of Outdoor Advertising Profitability Based on Road Traffic: Casablanca Case | Bachelor Final Project | 2025 | UIC / 2ACOM

- Assessed financial profitability of OOH and DOOH advertising structures using road-traffic flows, socio-economic indicators, and regulatory constraints.
- Used SUMO traffic simulation, GIS mapping, demographic analysis, and CAPEX/OPEX/TCO modelling to evaluate advertising-location attractiveness.
- Built a Potential Profitability Index integrating traffic volume, purchasing-power proxies, regulatory constraints, and operating costs.
- Modelled 4 OOH/DOOH investment scenarios over 5 years; projected maximum ROI of 533% and a 5-week break-even point in the strongest scenario.

PROFESSIONAL EXPERIENCE

Business Analyst – Financial Performance Intern | SAN MAROC | Feb. 2026 – Aug. 2026 | Casablanca / Remote

- Evaluated a 97.9B MAD non-performing loan portfolio through segmentation by aging profile and recovery probability.
- Reduced reporting cycle time by 40% (approximately 2 hours/week) across 10+ business units using VBA and Power Query workflows.
- Built Excel dashboards to monitor DSO, recovery rates, and collection-performance indicators for management reporting.

Business Analyst – Performance & KPIs Intern | 2ACOM Advertising Sales Agency | May 2025 – Jul. 2025 | Casablanca, Morocco

- Built a 5-year financial model integrating ROI, CAPEX, OPEX, and TCO for 4 OOH/DOOH investment scenarios.
- Designed a multi-criteria profitability index with 15+ variables across 5 market zones.
- Structured operational KPI monitoring for advertising-location performance and strategic investment prioritization.

Analysis & Reporting Intern – Client Portfolios & Risk | MAGHREBAIL Leasing & Financing | Jul. 2024 – Aug. 2024 | Casablanca, Morocco

- Analyzed financial performance and credit-risk exposure across 20+ corporate client portfolios.
- Standardized reporting outputs to improve reliability of client financial-commitment tracking.

TECHNICAL SKILLS

- **Econometrics & policy evaluation** : DiD logic; event-study design; matching diagnostics; MDE reasoning; robustness and sensitivity checks.
- **Finance & appraisal** : CBA; NPV; BCR; ROI; CAPEX/OPEX/TCO; cash-flow modelling; scenario analysis; credit-risk assessment.
- **Spatial, simulation & data** : QGIS; SUMO; spatial buffers; traffic-exposure mapping; Python fundamentals; regression/classification workflow.
- **Tools** : Advanced Excel; VBA; Power Query; Power BI; basic SQL; dashboard design; reporting automation.

LANGUAGES

- **French**: C2 / bilingual level (TCF 693/699).
- **English**: DET 110/160 (B2); preparing IELTS/TOEFL/EmSAT where required.
- **Arabic**: native.

ACTIVITIES AND INTERESTS

- **Leo Club**: community-service and student leadership activities.
- **Cultural & Artistic Club, UIC**: student-life and campus-event participation.
- **Interests**: smart-city investment, AI governance, urban mobility analytics, infrastructure finance.
