TARGETED RESEARCH FIT FOR AUS

MSc candidate in Procurement & Supply Chain Management with a Bachelor's in Management, Finance & Accounting and applied experience in infrastructure profitability, traffic-exposure analysis, spatial analytics, financial modelling, and dashboards. Applying to AUS MSEP with a Dubai-focused proposal that converts smart-traffic project claims into admissible welfare evidence through treatment-registry design, data-gated quasi-experimental evaluation, hedonic fallback analysis, and cost-benefit appraisal.

PROPOSED AUS MSEP RESEARCH ALIGNMENT

From Traffic Claims to Welfare Evidence | *Research proposal for the M.Sc. in Economics and Policy, AUS* | Dubai / UAE | May 2026

- Designed a data-gated protocol for Dubai smart-traffic investments, separating causal traffic effects, secondary property-capitalisation evidence, and scenario appraisal.
- Specified DiD/event-study models only under verified timing, geography, controls, and unit-period outcomes; defined downgrade rules when evidence cannot sustain causal claims.
- Integrated CBA through NPV, BCR, CAPEX/OPEX, value-of-time, safety, emissions, and sensitivity analysis, with QGIS/SUMO reserved for spatial exposure and scenarios.

EDUCATION

MSc coursework - Procurement & Supply Chain Management | *INSEEC Business School* | Lyon, France | Oct. 2025 - Present

- Focus: procurement analytics, supply-chain decisions, cost analysis, operational performance, digital transformation, and business analytics.

Bachelor's Degree - Management, Finance & Accounting | *Universite Internationale de Casablanca* | Casablanca, Morocco | Sept. 2022 - Jul. 2025

- Graduated with High Honors (Mention Tres Bien); academic base in finance, accounting, management, investment analysis, and applied research.

RESEARCH AND APPLIED PROJECTS

Predictive Investment Modelling and Spatial Analytics | *Graduation project / PFE* | Casablanca, Morocco | 2025

- Evaluated outdoor advertising infrastructure profitability using traffic flows, socioeconomic indicators, regulatory constraints, and OOH/DOOH operating models.
- Combined QGIS, SUMO, demographic analysis, CAPEX/OPEX/TCO modelling, ROI calculations, and a Potential Profitability Index for investment prioritisation.

AI-MCDM Investment Scoring for Smart Cities under Risk | *Independent research paper* | May 2026

- Built a smart-city project-ranking framework using XGBoost, carbon-adjusted NPV logic, Real Options reasoning, Fuzzy-AHP/MEREC weighting, and AROMAN ranking.

PROFESSIONAL EXPERIENCE

Business Analyst - Financial Performance Intern | *SAN MAROC (Debt Collection)* | Casablanca / Remote | Feb. 2026 - Aug. 2026

- Segmented recovery portfolios by ageing, recovery probability, and operational priority; built KPI dashboards for DSO, recovery rates, and portfolio monitoring.
- Reduced financial reporting cycle time by 40% through automated extraction and reporting pipelines using VBA and Power Query.

Business Analyst - Performance & KPIs Intern | *2ACOM (Advertising Sales Agency)* | Casablanca, Morocco | May 2025 - Jul. 2025

- Built a five-year OOH/DOOH financial model using ROI, CAPEX, OPEX, TCO, break-even logic, and zone-level profitability prioritisation.

Analysis & Reporting Intern - Client Portfolios & Risk | *MAGHREBAIL (Leasing & Financing)* | Casablanca, Morocco | Jul. 2024 - Aug. 2024

- Analysed financial performance and credit-risk exposure across corporate client portfolios; standardised reporting to improve data reliability.

TECHNICAL SKILLS

Econometrics & policy evaluation

Finance & appraisal

Spatial, simulation & data

Tools

DiD logic; event-study design; matching diagnostics; MDE reasoning; robustness and sensitivity checks.

CBA; NPV; BCR; ROI; CAPEX/OPEX/TCO; cash-flow modelling; scenario analysis; credit-risk assessment.

QGIS; SUMO; spatial buffers; traffic-exposure mapping; Python fundamentals; regression/classification workflow.

Advanced Excel; VBA; Power Query; Power BI; basic SQL; dashboard design; reporting automation.

LANGUAGES AND ENGAGEMENT

Arabic: Native | French: C2, TCF 693/699 | English: DET 110/160 (B2); preparing IELTS/TOEFL/PTE where required. | Engagement: Leo Club; Cultural and Artistic Club, UIC.
